<b>Type:</b>	NOTE

These are our standard terms. You need to accept our standard terms in total, without change. You have the experience to know what it would take to resource a controller. 2 years is not enough time. Plus with our strategic selection of a supplier, there would not be an intention to resource. But we have standard terms that must be agreed to. And surely they are not new to you and you have agreed with them in the past. I hope you can get Siemens to agree to the standard terms, as any deviation will weight heavily in our selection.

Tramutolo Michael <Michael.Tramutolo@at.siemens.com> on 06/08/2000 12:01:20 PM

Subject: Long Term Contract

Darrell:

We have one concern with the LTC Section-4.

This allows Delphi to immediately resource as early as 31-Jul-05.

We would only be 2 years into production and would not have recovered our amortized costs.

Can you accommodate us for this issue? Either, Delphi could change the verbiage or we could add a noted exception.

Mike Tramutolo
